

The 1st Advanced Nanomaterials and Application Workshop

KUT and FIU Joint IRES International Project 2023

(Date: Jul.14-17, 2023. Venue: K-hall, Kochi University of Technology, Japan)

Organization Committees

Kochi University of Technology

Prof. Dr. Akimitsu Hatta

Prof. Dr. Chaoyang Li

Prof. Dr. Hiroshi Furuta

Florida International University

Prof. Dr. Chunlei Wang

Prof. Dr. Nezih Pala

Paper Submission

Submit an abstract prepared in A4 size, with 25mm margins, the title in Japanese and English, and the affiliation and author name in English. Write the text in one or two columns. Color charts are available. It is recommended to use Mincho and Times New Roman fonts for the text.

Convert it to PDF and submit.

Submission Deadline: 7th July 2023

Overview:

This workshop will be held according to “the US-Japan Collaborative Research and Education Effort for Synthesis and Applications of Functional Nanomaterials. Advanced Nanomaterials and Application”. The research related to functional material synthesis, characterization and applications will be focused including the research fields: Electrical Engineering, Computer Engineering, Mechanical Engineering, Biomedical Engineering

Registration deadline

(including: workshop, coffee time, banquet, 3- day field trip):

- 1) oversea participant: 1800 dollars
- 2) oversea students: 800 dollars
- 3) accompanying person: 200 dollars
